

TELEPEN
Capture the
future...

The screenshot displays the 'Telepen Library System' interface. At the top, there is a menu bar with 'File', 'Reports', 'Recent Transactions', and 'About'. Below the menu, a 'Stop Location' field is set to 'HU1'. A navigation bar contains various options: 'Loan Limits', 'Loan Periods', 'Charges', 'Import/Export', 'Issue', 'Return', 'Enquiry', 'Reader Loans', 'Copies', 'Reader Traps', 'Book Traps', 'Create Books', 'Readers', 'Catalogue', and 'Boxes'. The 'ISSUE' section is highlighted in blue. Below this, there are input fields for 'Total Charges' and 'Enter/Scan Book Number' (containing '00359861'), along with an 'Issue Done' button. A table displays the following data:

Reader No.	Status	Name	On Loan	Overdue	Expiry Date	Trap
0649886	A	Hobart, J	5	0	19/11/2005	

Below the table, there are fields for 'Book No.' (00359861), 'Group' (1), 'Parent ID', 'ISBN' (0593017293), 'Issues' (1), 'Charge', 'Return Date' (23/05/2005), and 'Trap'. A light blue box contains the author and title information: 'Author: Blair, Emma' and 'Title: Maggie Jordan'. At the bottom left, it says 'Book Records: 4939'.

TELEPEN

Capture the future...

Windows Telepen Library System

WTLS is an interactive, compact Library circulation system with functionality and features in all the right areas. The current product is formed from 15 years experience in supplying systems to local authorities, the MOD, education and the private sector.

The Catalogue:

- Each record defines an item type eg a particular book title in a particular format.
- No upper limit to number of records.
- Multiple fields include ISBN, Author, Title, Dewey, Category
- Flexible and powerful search functionality.
- Fast link to associated circulation records.

The Borrowers:

- Each record defines one person or party whom resources can be drawn.
- No upper limit on number of borrowers.
- Multiple fields include name, address, expiry, status.
- Flexible and powerful search functionality.
- Fast link to associated loans.

Reader No.	0649886	Surname	Hobart	Forename(s)	J

<input type="button" value="Return Selected"/> <input type="button" value="Return All"/> <input type="button" value="Renew Selected"/> <input type="button" value="Renew All"/>						<input type="button" value="Change Return Date Selected"/> <input type="button" value="Change Return Date All"/>	
						New Date <input type="text" value="13/05/2005"/>	

The Circulation:

- Each record defines one physical item.
- Links to catalogue record.
- Rapid issue, return and renewal.

Ideal as a standalone system, WTLS has additional circulation, catalogue and borrower import and export functions making it well suited to satellite operations such as Mobile Libraries. There is even a facility to analyse and compare transactions and productivity at different stops.
